PROJECTS

- **Erp portal**

A PWA for teachers of Bharati Vidyapeeth's College of Engineering including many Features to help them solving daily tasks.

- **EventInsta**

An open source PWA to notify people about various events and meetups in their preferred groups. This is created to target groups and chapters in my campus and other campuses to connect students and keep them updated with latest events.

- **Collector Bot eYRC 2017**

- Bot for Collecting fine fruits from ground and dropping into a truck. Prototyped on Spark V

- **Distro Music**

Distro music is PWA in which we can play music on the various connected device over a network, any device can load music and it will be uploaded to the server so that every connected device can play it simultaneously.

- **Eternal Flame**

A Swift Package for creating animations in terminal by giving frames and type of easing in two line of code.

Dec. 2018-present

Vice Chairperson

Intel AI Society, Delhi.

Aug. 2017-present

Vice Chairperson

Bvp Mozilla Student campus club, New Delhi.

Jun. 2017-Aug. 2018

Core Team Member

Microsoft User Group, New Delhi.

Jun. 2017-Dec. 2018

HOBBIES

I seek pleasure in creating anything that can help others. The idea of sharing stories through just pictures amuses me, hence my love for photography. I relish solitude as much as I like talking to people and most of my conversations generally begin with or include music apart from talks about science, upcoming trends in technology or interesting things that I come across on the Internet.

I hereby declare that above-mentioned information is correct to the best of my knowledge and belief.

Place: New Delhi
